

Transform with SAP Analytics Cloud

MCG helps organizations unlock the full potential of SAP Analytics Cloud and Central Finance by integrating planning, forecasting, and revenue tools into one streamlined ecosystem. Whether you're navigating digital transformation or optimizing operations, we turn complexity into clarity.

What We Do

We implement, integrate, and align SAP analytics tools to your business model—enabling smarter decisions, seamless execution, and agile finance operations.

SAP Analytics

Integration, planning and AI

BRIM

Revenue information through contract + billing automation

Central Finance

Real-time visibility across systems

S/4 Transformation

From upgrades to strategic growth

Why it Matters Now

- Plan faster, forecast better, and act decisively.
- Consolidate finance across legacy and cloud systems.
- Power predictive insights that support recurring revenue and client flexibility.

"Our clients gain control, speed, and clarity—whether they're managing 12 systems or launching a new sales model."

Assessment & Alignment

Identify finance gaps, opportunities, and tech fit.

Integration & Transformation

Merge data sources, configure SAC, enable BRIM.

Insights & Optimization

Real-time dashboards, continuous improvement, predictive modeling.
